Contents of Volume 11

No. 1, Spring, 1979

Effects of preexercise feedings on endurance performance
C. Foster, D.L. Costill, and W.J. Fink 1

Influence of caffeine and carbohydrate feedings on endurance performance
J.L. Ivy, D.L. Costill, W.J. Fink, and R.W. Lower 6

Leg extension power and muscle fiber composition
Edward F. Coyle, David L. Costill, and George R. Lesmes 12

Cardiac output differences in males and females during mild cycle ergometer exercise
Patty Freedson, Victor L. Katch, Stanley Sady, and Arthur Weltman 16

Characteristics of national and world class female pentathletes
G.S. Krahenbuhl, C.L. Wells, C.H. Brown, and P.E. Ward 20

Prediction of maximal oxygen uptake in boys, ages 7-15 years
A. Bonen, V.H. Heyward, K.J. Cureton, R.A. Boileau, and B.H. Massey 24

Symposium on THE THERMAL EFFECTS OF EXERCISE IN THE HEAT

Introduction
Carl V. Gisolfi 30

Control of sweating rate while exercising in the heat
Ethan R. Nadel 31

Control of skin circulation during exercise and heat stress
Michael F. Roberts and C. Bruce Wenger 36

Effects of exercise in the heat on body fluid distribution
Leo C. Senay, Jr. 42

Heat tolerance and aging
B.L. Drinkwater and S.M. Horvath 49

Relationships among training, heat acclimation, and heat tolerance in men and women: the controversy revisited
Carl V. Gisolfi and Judith S. Cohen 56

Effects of physical training and cardiorespiratory physical fitness on exercise-heat tolerance: recent observations
Kent B. Pandolf 60

Effects of exercise in the heat on predisposition to heatstroke
Roger W. Hubbard 66

Abstracts of the 1979 American College of Sports Medicine Annual Meeting and Pan Pacific Conference 73

Author Index to Abstracts of the 1979 Annual Meeting 73

Information for Authors v

No. 2, Summer, 1979

Modelling in biomechanics: an overview
Doris I. Miller 115

Forces exerted during exercises on the uneven bars
James G. Hay, Carol A. Putnam, and Barry D. Wilson 123

The pull in Olympic weightlifting
Roger M. Enoka 131

Football helmets and neurotrauma—an epidemiological overview of three seasons
Kenneth S. Clarke and John W. Powell 138

Intrinsic motivation in a competitive setting
Robert S. Weinberg 146

The nature of the perception of effort at sea level and high altitude
Donald H. Horstman, Richard Weiskopf, and Sumner Robinson 150

Visual evoked potentials and signal detection following a marathon race
J.A. Gliner, J.A. Matsen-Twisdale, S.M. Horvath, and M.B. Maron 155

Matabolic effects of anabolic steroid on skeletal muscle
V. Rogozkin 160

Mitochondrial volume density in human skeletal muscle following heavy resistance training
J.D. MacDougall, D.G. Sale, J.R. Moroz, G.C.B. Elder, J.R. Sutton, and H. Howald 164

Physiological characteristics of sprint and endurance masters runners
R. James Barnard, Glen K. Grimditch, and Jack H. Wilmore 167

Physiological characteristics of elite prepubertal cross-country runners
Nancy Mayers and Bernard Gutin 172

Thermal and circulatory responses to repeated bouts of prolonged running
Michael N. Sawka, Ronald G. Knowlton, and Jerry B. Critz 177

Low exercise ventilation in endurance athletes
Bruce J. Martin, Kenneth E. Sparks, Clifford W. Zwillich, and John V. Weil 181

Cardiorespiratory health, recreation time and aging
David E. Sherwood and Dennis J. Selder 186

Symposium on VENTILATORY CONTROL DURING EXERCISE

Introduction
James A. Davis 190

Neural and humoral signs for pulmonary ventilation arising in exercising muscle
Michael Mahler 191

Control of pulmonary ventilation during exercise and mediators in the blood: CO_2 and hydrogen ion
John R. Sutton and Norman L. Jones 198

Peripheral chemoreceptors and exercise hyperpnea
Brian J. Whipp and James A. Davis 204

The brain's role in exercise hyperpnea
Jerome A. Dempsey, Dale A. Pelligrino, D. Aggarwal, and E.B. Olson, Jr. 213

Overview of ventilatory control during exercise
George D. Swanson 221

Information for Authors v

Policy Statement Regarding the Use of Human Subjects and Informed Consent vii

No. 3, Fall, 1979

Reduced heart rate response to exercise in ischemic heart disease: the fallacy of the target heart rate in exercise testing
A.C.P. Powles, J.R. Sutton, J.R. Wicks, N.B. Oldridge, and N.L. Jones 227

Cardiac output during rest and exercise in desert heat
L.G. Myhre, I.B. Oddershede, D.B. Dill, and M.K. Yousef 234

Cardio-respiratory and perceptual recovery from a marathon run
Bruce J. Noble, Carl M. Maresh, Thomas G. Allison, and Allen Drash 239

Alterations in pulmonary function consequent to competitive marathon running
Michael B. Maron, Lyle H. Hamilton, and Michael G. Maksud 244

Urinary cyclic AMP and cyclic GMP in normal and asthmatic subjects during exercise
H.A. Linklater, K.P. Strickland, D.A. Cunningham, J.C. Griffiths, and J.R. Trevithick 250

Physiological characteristics of trained Australian paraplegic and tetraplegic subjects
G.C. Gass and E.M. Camp 256

Muscle fiber composition and performance capacities of women
C.J. Campbell, A. Bonen, R.L. Kirby, and A.N. Belcastro 260

The effect of beta-blockade in ski-jumpers
T. Videman, T. Sonck, and J. Jänne 266

The energy cost of cross-country skiing among elite competitors
J.D. MacDougall, R. Hughson, J.R. Sutton, and J.R. Moroz 270

Basketball: the mechanics of hanging in the air
Robert D. Bishop and James G. Hay 274

Relationships of stroke rate, distance per stroke, and velocity in competitive swimming
Albert B. Craig, Jr. and David R. Pendergast 278

Performance evaluation of Olympic weightlifters
John Garhammer 284

A mathematical model of hiking positions in a sailing dingy
C.A. Putnam 288

Effects of selected test variables on the evaluation of football helmet performance
N.J. Calvano and R.E. Berger 293

Growth hormone response to continuous and intermittent exercise
Athanase Karagiorgos, Joseph F. Garcia, and George A. Brooks 302

Effect of endurance training on myocardial myosin adenosine triphosphatase activity of the dog
Rita A. Carey, Theodore F. Ritzer, and Alfred A. Bove 308

Information for Authors vii

Policy Statement Regarding the Use of Human Subjects and Informed Consent ix

No. 4, Winter, 1979

Muscle fatigue
Erling Asmussen 313

The synchronization of muscle activity and body segment movements during a running cycle
B.C. Elliott and B.A. Blanksby 322

Functional variability of the lower extremity during the support phase of running
B.T. Bates, L.R. Osternig, B.R. Mason, and S.L. James 328

Analysis of the velocity curve in sprint running
N.I. Volkov and V.I. Lapin 332

Plasma lactate accumulation and distance running performance
Peter A. Farrell, Jack H. Wilmore, Edward F. Coyle, John E. Billing, and David L. Costill 338

The effect of retabolil and training on activity of RNA polymerase in skeletal muscles
Victor Rogozkin and Boris Feldkoren 345

Proteinuria in the exercising dog
Jay B. Epstein and Edward J. Zambraski 348

Changes in bone mineral content following ligamentous knee injuries
Sture M. Andersson and Bo E. Nilsson 351

Age at menarche, family size, and birth order in athletes at the Montreal Olympic Games, 1976
Robert M. Malina, Claude Bouchard, Richard F. Shoup, Arto Demirjian, and Georges Lariviere 354

Tennis: the effects of grip firmness on ball velocity after impact
Toshihiko Watanabe, Yasuo Ikegami and Mitsumasa Miyashita 359

Symposium on EXERCISE IN THE POST CORONARY PATIENT

Exercise in the post coronary patient: unanswered questions
John R. Sutton 362

Considerations in organizing a multicentre study to examine effects of exercise on mortality and reinfarction in post coronary patients
Peter A. Rechnitzer 364

Exercise responses in post myocardial infarction patients
John R. Sutton 366

Quality control of exercise test measurements
Norman L. Jones and James W. Kane 368

Compliance of post myocardial infarction patients to exercise programs
Neil B. Oldridge 373

Factors related to dropout of post myocardial infarction patients from exercise programs
George M. Andrew and J.O. Parker 376

The effect of training: physiological responses
David A. Cunningham, K. Jennifer Ingram, and Peter A. Rechnitzer 379

The effects of training: reinfarction and death—an interim report
Peter A. Rechnitzer 382

Current status and prospects for post coronary exercise multicentre studies
Roy J. Shephard 383

Opinion Statement on THE PARTICIPATION OF THE FEMALE ATHLETE IN LONG-DISTANCE RUNNING ix

Contents for Volume 11 xii

Author index for Volume 11 xv

Key word index for Volume 11 xvi
